

## MATEC - Wisconsin Program Series

Register Today for this Two Part Webinar Series

### A New Era: Diagnosing and Treating Hepatitis C (HCV) in Primary Care Settings

The purpose of this two-part webinar series is to enable the learner to identify people with hepatitis C (HCV) and HIV, and provide HCV treatment to cure patients in the primary care setting. This series is intended for physicians, advanced practice providers, and pharmacists working in primary care clinic settings in Wisconsin. Please register for each individual webinar to receive event details, including CME/CEU information.

#### Part I: Primary Care Perspectives on HCV and HIV Screening and Treatment in the Primary Care Setting

Wednesday,  
March 3, 2021

12:00 - 1:00 PM Central Time

Register for Part I

[https://www.matec.info/event?ER\\_ID=36993](https://www.matec.info/event?ER_ID=36993)

#### Presenters:

**Kellene Eagen, MD**,  
Assistant Professor, Dept of  
Family Medicine &  
Community Health Addiction  
Medicine Fellowship Faculty,  
University of Wisconsin  
School of Medicine & Public  
Health

**Ruth Koepke, MPH**, Hepatitis C Epidemiologist,  
Wisconsin Department of Health Services

#### Program Description

COVID-19 is compounding drug and alcohol problems across Wisconsin, with suspected opioid overdoses increasing by [preliminary] 117 percent since the start of the pandemic compared to the same time in 2019. With the advancements of HCV treatment and Medicaid restrictions recently being lifted, primary care prescribers can more effectively treat people with HCV.

#### Learning Objectives

- Recognize the impact of HCV and HIV in underserved and marginalized communities in Wisconsin.
- Describe how stigma plays a role in successful prevention, care and treatment of communicable diseases such as HCV and HIV.
- Summarize the role primary care teams have in screening for and treating HCV and HIV.
- Identify existing learning resources and clinical guidelines.

## Part II: A Tale of a FQHC's Integration of HCV Treatment into Primary Care Services

**Wednesday,  
March 10, 2021**

**12:00 - 1:00 PM Central Time**

**Presenter:**

**Elizabeth Pyne, MD**  
Medical Director, Parkway  
Clinic  
Sixteenth Street Community  
Health Centers

**Register for Part II**

[https://www.matec.info/event?ER\\_ID=36995](https://www.matec.info/event?ER_ID=36995)

### Program Description

Integrating new care models into clinic workflow can be intimidating. Attend this webinar to learn how a Federally Qualified Health Center (FQHC) in Wisconsin used lessons learned from establishing an HIV program to integrate HCV treatment of uncomplicated patients into their primary care services.

### Learning Objectives

- Formulate ways to outreach to patients for HCV testing and treatment.
- Outline HCV treatment timeline and staff involvement with various steps in the process.
- Identify key healthcare staff to include on an HCV care team.
- Discuss potential barriers and important items to consider when developing HCV testing and treatment protocols.

### Accreditation Statement

In support of improving patient care, this activity has been planned and implemented by the University of Wisconsin–Madison Interprofessional Continuing Education Partnership (ICEP) and Midwest AIDS Training + Education Center. The University of Wisconsin–Madison ICEP is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team. Additional accreditation information is available on the registration page for each event.
