

WISCONSIN SOCIETY OF ADDICTION MEDICINE

2017 ANNUAL CONFERENCE

Advancing the Art and Science of
Addiction Prevention and Treatment in Wisconsin

September 14 - 16, 2017 • The Pyle Center, Madison, WI

What are we doing to address the opioid misuse epidemic?

How can we effectively work together for the prevention and treatment of substance use disorders and overdose deaths in Wisconsin?

What are the legislative updates that impact the prevention and treatment of substance use disorders in our state?

Registration link: <https://wisconsinsocietyofaddictionmedicine.wildapricot.org/event-2529016/Registration>

This conference is open to individuals working in addiction prevention and treatment across disciplines, including clinicians, social workers, recovery coaches, individuals in recovery, law enforcement, and public health officials.

Thursday, September 14 - Friday, September 15, 2017: Main Conference

Saturday, September 16, 2017: Post-Conference workshops on the practical use of buprenorphine and naltrexone in medication - assisted treatment, and on Wisconsin's Medical Examining Board opioid prescribing guidelines

The Pyle Center

Madison, WI

Conference Directors:

Aleksandra Zgierska, MD, PhD, DFASAM

Nameeta Dookeran, MD, MSc, FASAM, FACP

Statement of Need

Opioid abuse and overdose deaths have reached the level of an epidemic in the U.S., including in Wisconsin, and the national, state and local professional organizations call for increased education on opioid overdose prevention and the treatment of substance abuse, especially opioid use disorders. Alcohol use disorders remain a significant public health problem. New emerging drugs add to the burden caused by substance use disorders locally and nationally. Clinicians and other professionals involved in improving the care of individuals with substance use disorders need to be aware of the new trends in the field in order to implement effective strategies for the prevention and treatment of substance use disorders.

Target Audience

This conference is ideal for: physicians, physician assistants, nurse practitioners, nurses, pharmacists, psychologists, social workers, mental health and substance abuse counselors, law enforcement, public health and other professionals interested in the field of addiction.

Elements of Competence

This CME activity has been designed to expand the learner's knowledge about multidisciplinary, effective approaches to the prevention and treatment of substance use disorders, especially opioid use disorders. Increased knowledge in these areas will lay foundation for identifying and bridging gaps in prevention and treatment so that access to services and outcomes are improved among individuals affected by substance use disorders in Wisconsin.

WISCONSIN SOCIETY OF ADDICTION MEDICINE

2017 ANNUAL CONFERENCE

Advancing the Art and Science of
Addiction Prevention and Treatment in Wisconsin

September 14 – 16, 2017 • The Pyle Center, Madison, WI

Program Highlights

- Multidisciplinary perspectives from leading experts and individuals in recovery on how to reduce the impact of substance use disorders in Wisconsin.
- Content is relevant to addressing Wisconsin's epidemic of opioid and other substance use disorders and overdose deaths, and the treatment of substance use disorders and co-occurring mental health problems.
- Content will reinforce a foundation for providing exemplary patient care.

Objectives

- Describe multiple perspectives to the prevention and treatment of opioid and other substance use disorders in Wisconsin.
- Evaluate current knowledge and communication gaps in addressing substance use disorders.
- Formulate ideas on how to effectively collaborate to curtail the impact of substance use disorders, especially the epidemic of opioid use disorders and overdose deaths, in Wisconsin.
- Expand knowledge about evidence-based approaches to treating substance use disorders and co-occurring mental health problems.
- Apply the acquired knowledge to support collaborative efforts and effectively reduce the impact of substance use disorders in Wisconsin.

Conference Venue

The conference will take place at the Pyle Center in Madison, WI. The Pyle Center is located one block from State Street, which has a wide variety of shops, restaurants, art galleries, and music venues. It offers ample meeting and reception space, food and beverage services. Wireless internet is provided free of charge.

Continuing Education

Accreditation Statement:

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of The Medical College of Wisconsin and WI Society of Addiction Medicine. The Medical College of Wisconsin is accredited by the ACCME to provide continuing medical education for physicians.

AMA Credit Designation Statement:

The Medical College of Wisconsin designates this Live Activity for a maximum of **15.75 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Hours of Participation for Allied Health Care Professionals:

The Medical College of Wisconsin designates this activity for up to 15.75 hours of participation for continuing education for allied health professionals.

** Up to **15.75 AMA PRA Category 1 Credits™** available for Thursday, Friday and Saturday afternoon attendance.

Are you an NP or PA? ASAM also provides the additional 16 hours required for NPs and PAs to qualify for a waiver.

Hosted by the Wisconsin Society of Addiction Medicine

The ASAM Treatment of Opioid Use Disorder Course covers the highest quality, evidence- based practices for treating patients with opioid use disorder.

The ASAM Treatment of Opioid Use Disorder Course is designed for:

- Physicians, nurse practitioners, physician assistants, and health care team members working with patients with opioid use disorder.
- Physicians, nurse practitioners, and physician assistants who wish to obtain a waiver to prescribe buprenorphine in office-based treatment of opioid use disorders.

Our case-based learning format will show you how to apply this new knowledge. You will learn how to:

- Have specific knowledge to offer treatments for patients with opioid use disorder.
- Identify and assess patients who are appropriate for treatment with medications.
- Discuss the psychiatric and medical co- morbidities associated with opioid addiction.
- Apply for a waiver to prescribe buprenorphine to patients with opioid use disorders.

Course Format

Blended: 4 hours of self-paced online plus 4 hours live provide the required 8 hours needed to obtain the waiver to prescribe buprenorphine in office-based treatment of opioid use disorders. Online portion available upon registration through the ASAM e-Learning Center.

ASAM is an approved provider by CSAT/SAMHSA of DATA 2000 training.

ACCME ACCREDITATION STATEMENT: The American Society of Addiction Medicine (ASAM) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians.
