We had an alarmingly positive response to offering these webinars and cannot exceed registration limits. In order to best serve those interested in participating in one of the trainings, WISAM is able to offer three x-waiver training webinars in May in order to accommodate all who are interested.

We apologize for any inconvenience, but since our capacity is 75 registrants for each webinar, we require first-come first-serve registration for the webinar date that best fits your schedule.

If you are a Wisconsin provider eligible to prescribe buprenorphine and still interested in participating in one of the webinar trainings, please register for one of the three May

webinars that are available above.
