Information and Resources

WISAM's [COVID-19 Resources](#) webpage is updated weekly and hosts national and state news, updates and other resources including mental health information. Make sure you check out the ASAM resources as well.

Buprenorphine X-Waiver Training Webinar Series

WISAM has had a very positive response to offering x-waiver training webinars in place of the in-person trainings that were unfortunately cancelled for the remainder of the year due to COVID-19. In order to best serve those interested in participating in one of the trainings, WISAM was able to offer three x-waiver training webinars in May in order to accommodate all who are interested and will continue to offer one per month as part of the 2020 series.

If you are a Wisconsin provider eligible to prescribe buprenorphine and interested in participating in one of the webinar trainings, [please register here](#).

THE ASAM

Treatment of Opioid Use Disorder Course

Includes Waiver Qualifying Requirements

WACEP and WHA Promote Safe Care in Hospitals and ERs

The Wisconsin Chapter of the American College of Emergency Physicians and the Wisconsin Hospital Association have partnered to spread the message that hospital emergency rooms and urgent care clinics remain safe, clean and ready to help give patients the care they need. We believe it is important to remind the public that hospitals are hard-wired to provide a safe environment and prevent infection spread. Along with

a press release, two versions of an audio Public Service Announcement have been distributed. [View the PSAs here!](#)
